ENGINEERED FOR PERFORMANCE BUILT FOR TRUST

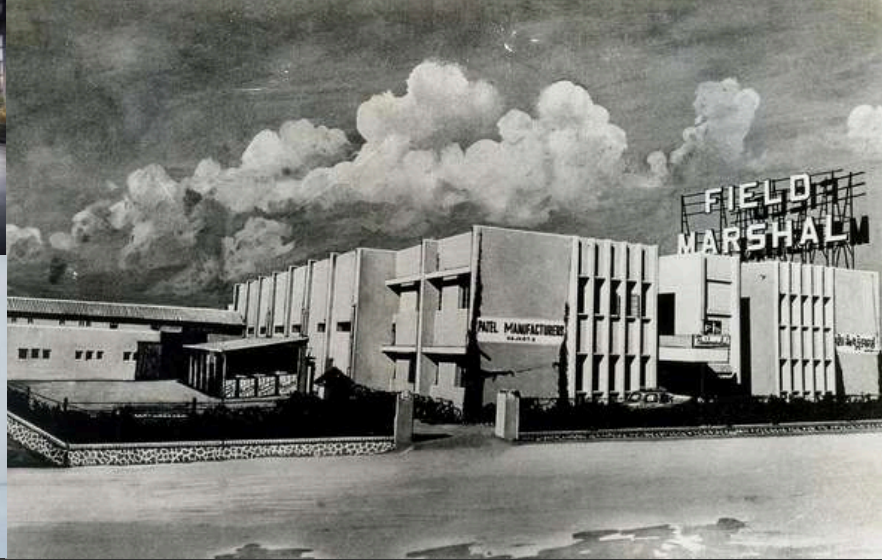

Industrial Machinery and Equipment

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

Introduction to **FIELDMARSHAL**

**Engineering Legacy.
Future-Ready Solutions.**

For over six decades, Fieldmarshal has been a trusted name in engineering and manufacturing world-class industrial machinery and equipment. From pioneering diesel engine technology in 1963 to delivering advanced sweeping solutions for modern infrastructure, our journey reflects continuous innovation, reliability, and customer trust.

Today, we design machines that enhance productivity, improve environmental conditions, and deliver long-term performance across industries.

Legacy & Milestones

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

From Legacy to Leadership

1963

Foundation of Engineering Excellence

Introduction of slow- and high-speed diesel engines for agricultural applications—establishing a strong base of reliability and performance.

TODAY

Advancing Modern Cleaning Solutions

Delivering high-performance, efficient, and sustainable sweeping solutions designed for diverse industries and urban environments.

THE ROAD AHEAD

Driving a Cleaner, Smarter Future

Focused on continuous innovation, sustainability, and expanding our footprint across industries and geographies.

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

Purpose

To empower industries with dependable, performance-driven machines that enhance productivity, operational efficiency, and environmental sustainability.

Core Values

INTEGRITY

We do what is right, always

RELIABILITY

Machines built for real-world performance

INNOVATION

Continuously evolving with industry needs

RESPONSIBILITY

For our customers, communities, and environment

PERFORMANCE

Engineered for durability and measurable results

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

The Fieldmarshal Advantage

Why Leading Industries Choose Us

ENGINEERING EXCELLENCE

Precision-driven machines built for durability and performance

SUSTAINABLE & GLOBAL

Built in India. Designed for global environments

BUSINESS VALUE

Efficiency that drives long-term productivity and profitability

Quality that Performs

Reliability that Lasts

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

Manufactured in ISO 9001-certified facilities, every FieldMarshal machine undergoes rigorous testing to ensure consistent quality and long-term durability.

Backed by a one-year unlimited-hours warranty and strong on-ground service support, our machines are designed to keep your operations running—without interruption.

Fieldmarshal

Seal of Assurance

Since 1963
Fieldmarshal
P. M. DIESELS PVT. LTD.

- ✓ **60+ Years of Engineering Expertise**
- ✓ **Global Technology Integration**
- ✓ **Proven Lifecycle Support**
- ✓ **Heavy-Duty Build Quality**
- ✓ **Environmentally Responsible Engineering**
- ✓ **Pan-India Service Network**
- ✓ **Continuous Product Innovation**
- ✓ **Priority Service Commitment**
- ✓ **Ease of Operation**
- ✓ **Optimised Performance**
- ✓ **Superior Value for Money**

**Fieldmarshal.
Engineered for Performance.
Built for Trust.**

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

Applications & Industry Coverage

One Solution. Multiple Environments

INDUSTRIAL & HEAVY-DUTY

Cement, Steel, Mining, Chemicals, FMCG

INFRASTRUCTURE & TRANSPORT

Highways, Airports, Ports, Railways, Logistics

MUNICIPAL & GOVERNMENT

City Cleaning, Public Spaces, Townships

COMMERCIAL & INSTITUTIONAL

Hospitals, Malls, Campuses, Hotels

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

Product Portfolio

Engineered for Every Environment

URBAN & INFRASTRUCTURE SOLUTIONS

High-performance machines for roads, highways, and public infrastructure

HEAVY-DUTY INDUSTRIAL SOLUTIONS

High-performance machines for roads, highways, and public infrastructure

COMPACT & PROFESSIONAL SOLUTIONS

High-performance machines for roads, highways, and public infrastructure

Heavy-Duty

Designed Around Your Application

CUSTOMIZED SOLUTIONS

Configurable Design

Modular Enhancements

Application-based configurations

Regulatory compliance

ENHANCEMENT ECOSYSTEM

Multi-Utility

Water reel with high-pressure pump, High-pressure road washing bar, Magnetic bar, Litter / garbage picker, Extended wander hose, LED display screen, Dynamic air quality monitoring system

Safety & Protection

Panoramic 360° surround view, Emergency safety features (Emergency siren, first aid box attachment, safety grill), Fire safety provisions (Fire extinguisher holder), Tyre pressure & temperature monitoring system, Panoramic lighting

Operator Convenience & Utility

Dedicated tool box, In-cabin document box, Staff storage locker, Day & night cabin configuration

Efficiency & Performance

Side brush monitoring system, Touch screen controls, Water mist dust suppression system, Extension front brush, Climate control system, Side brush flexibility system, Fleet management system

FUEL & ENERGY OPTIONS

Diesel

Electric (EV)

CNG

Hybrid

Since 1963

Ownership & Business Flexibility

Solutions Designed Around Your Needs

✔ Direct Ownership

- Full control and long-term value
- Maximum ROI over lifecycle
- Complete operational independence

✔ Rental and Leasing

- Zero upfront investment
- Flexible tenure options
- Scalable for project needs

✔ Hybrid Programs

- Combine flexibility with ownership
- Reduce financial risk
- Adapt to evolving operations

Service scope flexibility

Solution

Support & Engagement Ecosystem

Since 1963
Fieldmarshal
P. M. DIESELS PVT. LTD.

Support That Keeps You Moving

SERVICE & MAINTENANCE

Preventive care, breakdown support, optimization

PARTS & WARRANTY

Genuine parts, extended coverage, reliable claims

MACHINE CARE

AMC programs, lifecycle support, standby options

TRAINING & CERTIFICATION

Operator training, safety programs, skill development

CUSTOMER PROGRAMS

Loyalty benefits, referrals, upgrade opportunities

KNOWLEDGE CENTRE

Manuals, videos, best practices, troubleshooting

Why It Matters

Maximum
Uptime

Lower
Operating Costs

Longer
Machine Life

Better
Productivity

Safer
Operations

Customer Engagement Programs

Since 1963

Fieldmarshal

P. M. DIESELS PVT. LTD.

Building Relationships That Lasts

LOYALTY PROGRAMS

Rewarding long-term partnerships with exclusive benefits, priority support, and value-added services.

TRAINING ACADEMY

Empowering operators and teams with hands-on training to ensure safe, efficient, and optimal machine performance.

CERTIFICATION PROGRAMS

Validating operator skills and technical expertise to maintain high standards of safety and performance.

KNOWLEDGE CENTRE

Access to manuals, guides, and best practices to support continuous learning and effective machine operation.

MC - 4000

MC series models are heavy-duty mechanical sweepers with efficient conveyor transfer for maximum debris collection in demanding environments.

Features

Conveyor-Based Sweeping System, 2 Side Brooms & Large Diameter Main Broom, Low Operating Cost, Fuel Efficient Operation, Effective Cleaning on Uneven Surfaces, Suitable for Dry & Wet Conditions, 3000 mm Sweeping Width (Rear Mounted Main Broom & Dual Side Brooms), Low Turning Radius & High Maneuverability, Water Tank for Dust Suppression, Variable Height Hopper (High Dump Function), Hopper with Lifting Mechanism

Specifications

Type, Collector Mechanism	Truck Mounted Sweeping Machine, Conveyor Based
Fuel Consumption (L/hr) approx	7
Max Speed (km/hr) approx	80
Sweeping Speed (km/hr) Upto	10
Fuel Tank (L)	100
Side Brushes	2
Side Brush Diameter (mm)	950
Main Broom Diameter (mm)	900
Main Broom Length (mm)	1475
Sweeping Width (mm)	3000
Hopper Capacity (Cu.m)	4
Dump Height (mm)	2400
Water Tank (L)	500 - 750

Comprehensive Range of Customization & Add-On Options Available

MC - 5000

MC series models are heavy-duty mechanical sweepers with efficient conveyor transfer for maximum debris collection in demanding environments.

Features

Conveyor-Based Sweeping System, 2 Side Brooms & Large Diameter Main Broom, High Capacity Low Dump Hopper, Low Operating Cost, Fuel Efficient Operation, Effective Cleaning on Uneven Surfaces, Suitable for Dry & Wet Conditions, Wide Sweeping Path (rear mounted main broom and dual side brooms), Low Turning Radius & High Maneuverability, Water Tank for Dust Suppression

Specifications

Type, Collector Mechanism	Truck Mounted Sweeping Machine, Conveyor Based
Fuel Consumption (L/hr) approx	7
Max Speed (km/hr) approx	80
Sweeping Speed (km/hr) Upto	10
Fuel Tank (L)	100
Side Brushes	2
Side Brush Diameter (mm)	950
Main Broom Diameter (mm)	900
Main Broom Length (mm)	1475
Sweeping Width (mm)	3000
Hopper Capacity (Cu.m)	5
Dump Height (mm)	1200
Water Tank (L)	500 - 750

Comprehensive Range of Customization & Add-On Options Available

VS 1500

VS series models are high-performance vacuum sweepers designed for efficient dust and debris collection in urban and industrial environments.

Features

High Suction Performance, Optimised Sweeping System, Easy Access Controls, Intelligent Control System, High Power Lighting, Adjustable Suction Airflow, Wander Hose Attachment, Auxiliary Engine Ignition, Accelerator Control, Sweeping Head & Brush Control, Debris Hopper Tipping, CCD Monitoring, Hour Meter, Emergency Stop, Mode Selector (Sweeping / Travelling), Rotary Brush Speed Control

Controls & Monitoring System

On/Off Controls, Suction Fan Drive, Brush Control (Roller & Rotary), Filter Cleaning System, Water Spray System, Equipment Lighting, Oil Pressure Gauge, Temperature Gauge, Ampere Meter, Auxiliary Engine Monitoring, Filter System Air Pressure

Specifications

Parameter	Specification
Sweeping System	Wet & Dry
Sweeping Speed Max	10 km / Hr.
Sweeping Width	1950 mm
Side Broom	600 mm
Main Broom Length	1350 mm
Main Broom Diameter	300 mm
Hopper Capacity	1500 L
Water Tank	100 L [optional]
Hydraulic Tank Capacity	50 Lt
Vacuum Hose Dia / Length	150mm / 10 Ft [optional]

Comprehensive Range of Customization & Add-On Options Available

VS 2000

VS series models are high-performance vacuum sweepers designed for efficient dust and debris collection in urban and industrial environments.

Features

High Suction Performance, Optimised Sweeping System, Easy Access Controls, Intelligent Control System, High Power Lighting, Adjustable Suction Airflow, Wander Hose Attachment, Auxiliary Engine Ignition, Accelerator Control, Sweeping Head & Brush Control, Debris Hopper Tipping, CCD Monitoring, Hour Meter, Emergency Stop, Mode Selector (Sweeping / Travelling), Rotary Brush Speed Control

Controls & Monitoring System

On/Off Controls, Suction Fan Drive, Brush Control (Roller & Rotary), Filter Cleaning System, Water Spray System, Equipment Lighting, Oil Pressure Gauge, Temperature Gauge, Ampere Meter, Auxiliary Engine Monitoring, Filter System Air Pressure

Specifications

Parameter	Specification
Sweeping System	Wet & Dry
Sweeping Speed Max	15 Km / Hr.
Sweeping Width	2150 mm
Side Broom	600 mm
Main Broom Length	1550 mm
Main Broom Diameter	360 mm
Hopper Capacity	2000 L
Water Tank	150L [optional]
Hydraulic Tank Capacity	60 L
Vacuum Hose Dia / Length	150mm / 12 Ft [optional]

Comprehensive Range of Customization & Add-On Options Available

VS 3000

VS series models are high-performance vacuum sweepers designed for efficient dust and debris collection in urban and industrial environments.

Features

High Suction Performance, Optimised Sweeping System, Easy Access Controls, Intelligent Control System, High Power Lighting, Adjustable Suction Airflow, Wander Hose Attachment, Auxiliary Engine Ignition, Accelerator Control, Sweeping Head & Brush Control, Debris Hopper Tipping, CCD Monitoring, Hour Meter, Emergency Stop, Mode Selector (Sweeping / Travelling), Rotary Brush Speed Control
